

MAIL-OUT #13-30
ATTACHMENT 2

1. Clarification – In support of funding tables
(Section C.1.(C), p. 4; Appendix A, pp.41&42; Appendix E, p.61)

- (C) Fleet Compliance Information: Fleet owners with a fleet size of 3 or less vehicles and at least one vehicle with a GVWR over 26,000 pounds must provide one of the following items:
- (1) TRUCRS report showing fleet information with at least one filter or meet PM BACT.
 - (2) Proof of purchase showing VDECS family name, serial number, VIN, and retrofit installer.
 - (3) Photographs of VDECS labels on engine and retrofit showing family name, serial number, and VIN.
 - (4) Photograph of 2007+ engine label with VIN.

2. Clarification – In support of funding tables
(Section C.3.(A), p. 10; Appendix A, p. 38; Appendix E, p.60)

The Eligible Model Years for the Existing Engine: The model year of the existing engine must be 2006 or older.

Existing Engine Model Year: For replacement projects, the applicant must prove that the existing vehicle is equipped with a model year 2006 or older engine. For retrofit projects, the applicant must document that the existing vehicle is equipped with a model year 1997 through 2006 engine.

3. Clarification – In support of funding tables
(Appendix G, p. 66)

- For a period of 36 months from the delivery date, I will not engage in any activities that are subject to the Drayage Truck Regulation, Title 13, California Code of Regulations, Section 2027, including accessing any regulated port or intermodal rail facility. During this 36 month period, I understand and agree that the Air Resources Board (ARB) will enter my truck in the Drayage Truck Registry as “non-compliant”.
- All terms and conditions of the Application remain in effect.
